◇ Outline and characteristics of the course

for Teacher Training Students

○ Characteristics of the program

This course has an excellent curriculum for experts engaged in the research of practical instruction and allows students to take advantage of the latest research work in educational science in Japan. In this course we also emphasize education for fostering students' advanced practical teaching abilities with balanced theory and practice combinations by cooperating with schools attached to the university and with the Center for Education Research. In addition, this course utilizes not only the conclusions of these educational studies but also the results of Japanese cultural studies.

The program of this course consists of many unique subjects and lectures. A small number of students will take part and they will be enthusiastically guided by experienced teaching staff, enabling students to study the findings of advanced educational research work in the specialist areas. At the same time, participants in this course can become acquainted with the current condition of Japan's schools and acquire knowledge of Japanese culture.
